

# What makes sounds sound different???

Today you have a challenge--make the musical scale with your equipment...

Let's review our class rules since we will be working in table groups...

2-14-11

Water lab p. 544

higher pitch

lowest pitch

\* Pitch comes from frequency \*

low frequency has low pitch

Softer sound

louder sound

\* Volume Comes from amplitude.  
larger amplitude (taller wave) = loud

HW due Wed ① graphic organizer

② corrections
