

HOW IS HEAT TRANSFERRED?????

Let's make an organizer:

- 1) Take a white sheet of paper
- 2) Fold in half "hot dog" way
- 3) Cut the top into thirds...

Welcome!!! Please get ready to take notes...

2/4/11

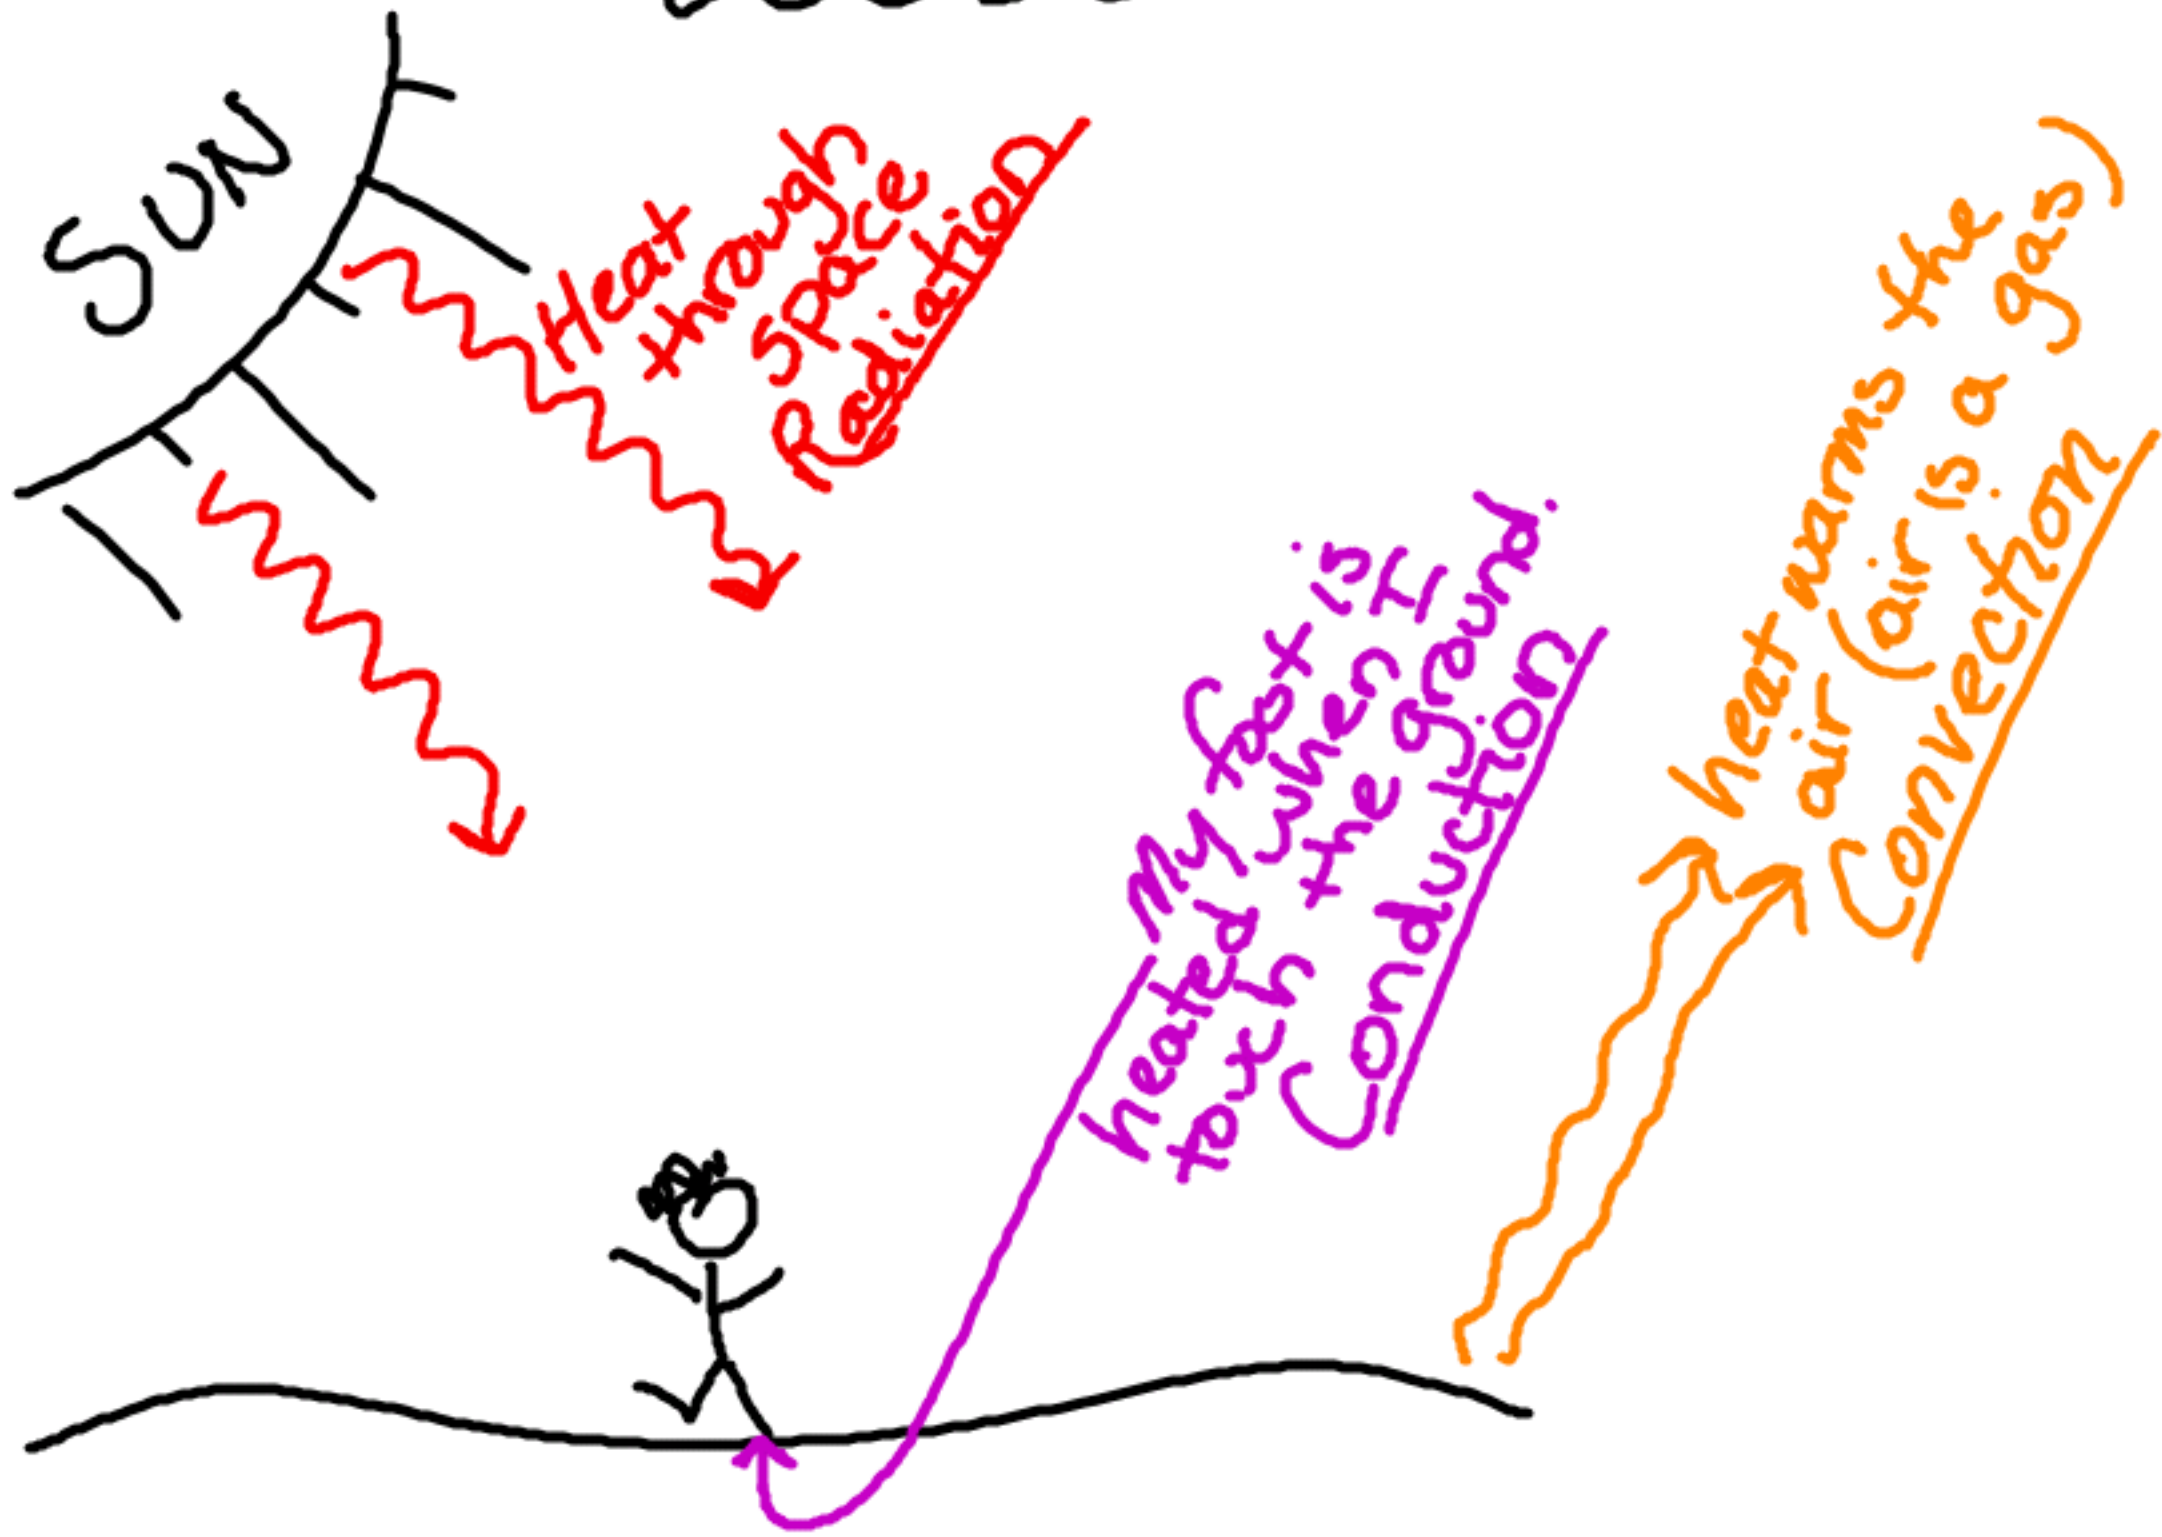

temperature: measures heat in matter.

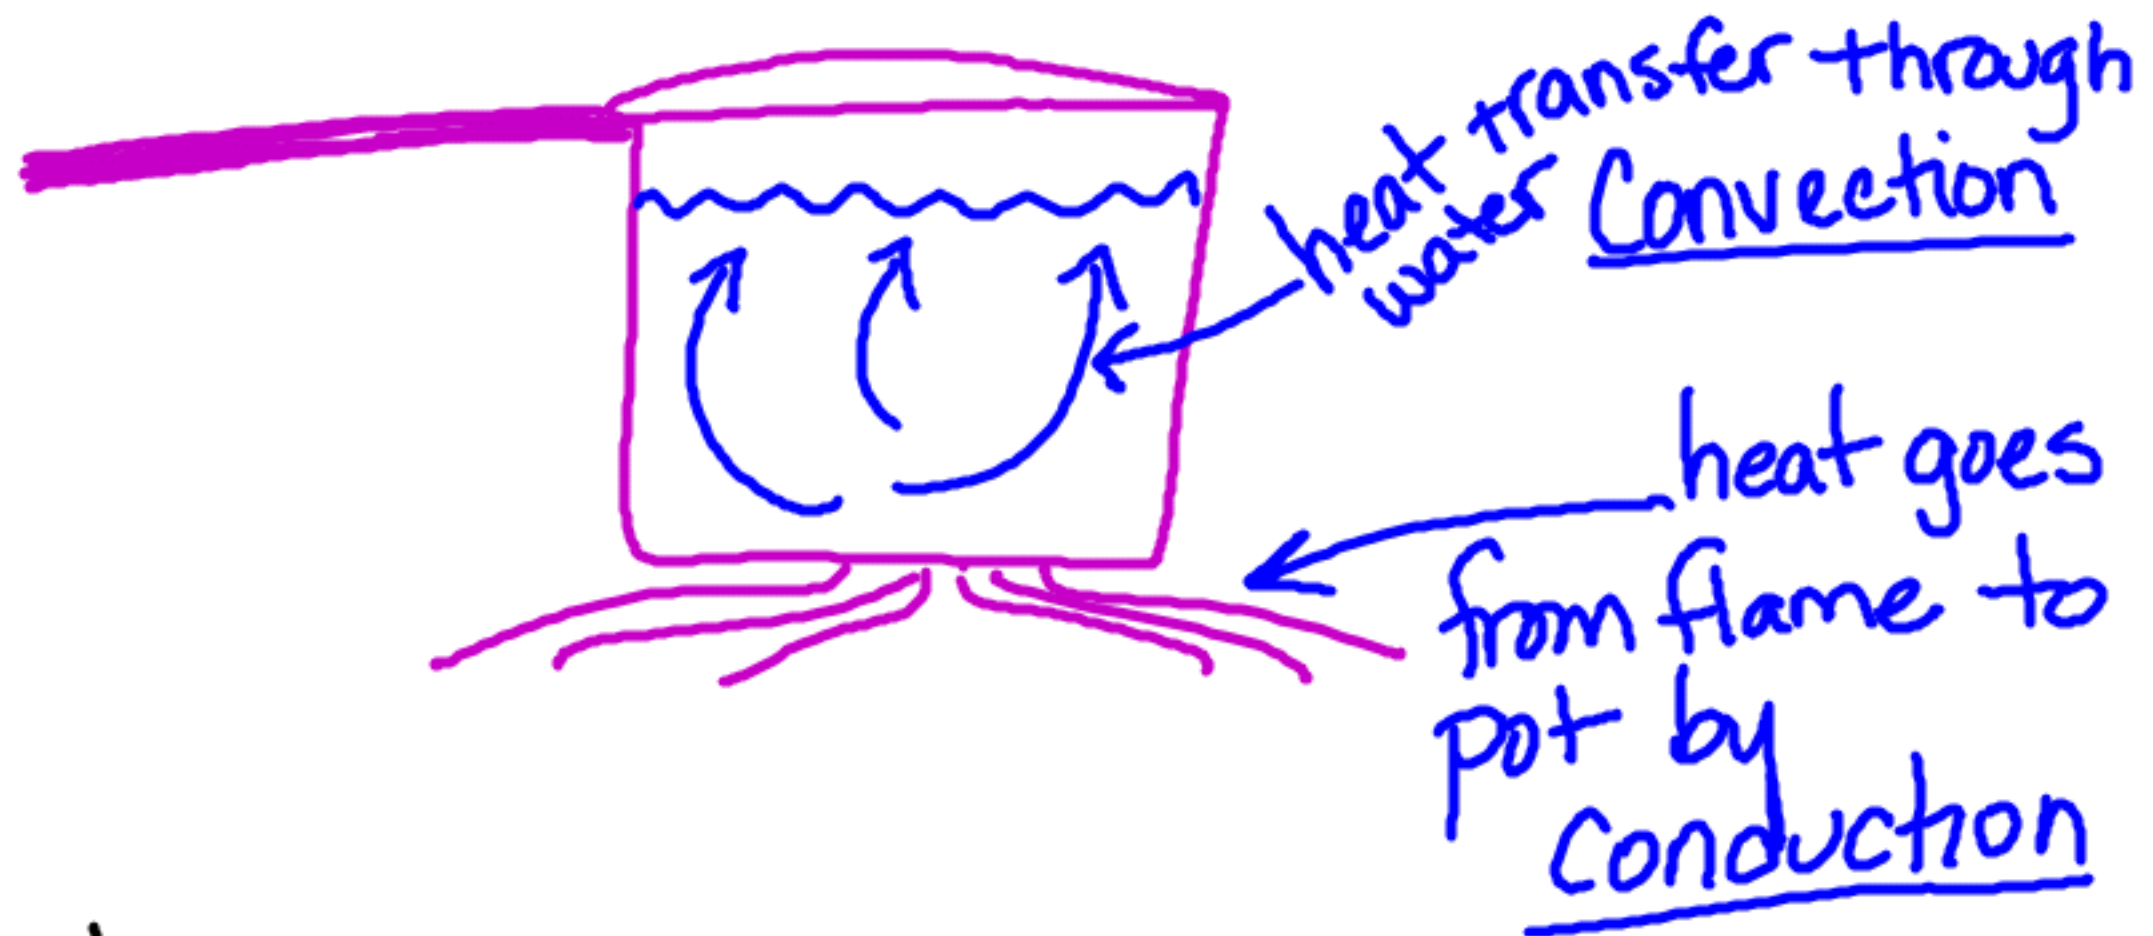

p. 531

C = celcius

0°C = water freezing 100°C = water boiling

Heat travel

insulators: do not transfer heat well
• wood, • blanket, • plastic, • cardboard

Conductors: transfer heat well

- metal
- bricks/stones
