

Happy Fall Festival Thursday!

- 1. Turn in "Magnus" story if you have one.**
- 2. Open binders to take just a few notes.**
- 3. Let's discuss the Magnus story first...**
- 4. Ms. Frizzle @ 2:45**

10-28-10

Magnets

Magnetism is produced by magnets. It is a force.
All forces are pushes or pulls.

All magnets have poles: South
and North.

Attract

Remember atoms? All atoms in magnets are tiny magnets themselves!

WHEN all domains line up... you get a magnetic field, magnetism, **MAGNET!**
